

Maths Practice Paper

Before you begin:

1. This is a multiple-choice paper. For each question, circle the letter next to the answer you think is correct.
2. Choose only one answer per question. If you change your mind, cross out your first answer clearly and circle your new choice instead.
3. Work through the paper in order. If a question feels difficult, leave it and come back to it once you have answered the others.
4. You have 30 minutes to complete this paper. There is no penalty for guessing, so attempt every question.
